FIBER FILM MANUAL-L

Product Overview

Fiber Film is a novel, high efficiency stretch film with reinforcement elements (fibers) that prevent tearing.

Fiber Film **Manual-L** is specifically designed for **Light** manual applications & it offers **high pallet load stability** whilst it **costs less** than other stretch film for manual use in the market.

It has been **ergonomically designed** as to be **stretched and unwinded easily**. It has also much **lower weight** than conventional manual stretch film and the user can wrap a pallet quicker and with less effort.

Fiber Film **Manual-L** can **easily replace a standard stretch film of 17µm thickness or less**.
